

TOP NOTCH ENGINEERING SOLUTIONS

RTS

product engineering

About Us

Our engineering office was established to provide high-quality product development solutions for companies involved in various development projects, including software and hardware development, as well as the market introduction of new products. Our team consists of diverse and experienced professionals. With our generalist approach, we quickly adapt to the needs of our clients. We are happy to participate in any stage of the development projects, finding challenges in every area and striving to provide value to our clients that we can all be proud of. We enjoy working independently or together with our client's teams to help customers in the most suitable ways.

Our Mission

We believe in doing good work and doing it well.

We aim not only to meet our client's expectations but also to exceed them, leveraging our expertise in new and various fields. The complex projects we faced in the recent years have presented us with significant professional challenges, but despite this, we have gained satisfied clients in all our projects. We believe this is the real value. Whether it's complex system development, product development or technical assistance, our experienced engineers and knowledge are always reliable for our partners.

Our Portfolio

- ✓ Custom software development
- ✓ Hardware development
- ✓ Mechanical design
- ✓ Prototype manufacturing
- ✓ Compliance
- ✓ Quality management consultancy

Managed work

Structured intellectual work pays off; we work in an organized manner.

Transparency

Our open, transparent, and honest operations are the basis of trust.

Generalist approach

Our diverse team and experienced project leaders can cover a wide technological spectrum.

Agile collaboration

We are happy to work on a project basis or in a consultative manner.

Senior engineering work

We are building a professional engineering group where real expertise is the key to success.

Successful methodologies

Through our self-developed systems and experience, we save time and, thus, money for our clients.
